

# Changes to classification units for 2022

Each year when we set premium rates for the next year, we review and evaluate our classification units to ensure we continue to provide fair insurance rates.

We group employers into specific classifications (called classification units, or CUs) based on their industrial activities. By grouping employers in similar industries that have similar levels of risk, we are able to set rates to reflect that risk, and thus charge industries the appropriate rates.

## Classification units expired for 2022

These classification units represent industries with few employers. We are merging each with an existing CU.
