

Changes to classification units for 2024

Each year when we set premium rates for the next year, we review the current classification structure to ensure we continue to provide fair insurance rates.

We group employers into specific classifications (called classification units, or CUs) based on their industrial activities. By grouping employers in similar industries that have similar levels of risk, we are able to set rates to reflect that risk and thus charge industries the appropriate rates.

Classification units to be expired

These CUs represent industries with few employers. Each of these CUs will be merged with an existing CU.

2023 CU to be expired	Number of firms	2022 payroll (millions)	2024 CU Number and Title
